RESPONSE TO RESTRICTION REQUIREMENT

Sir:

In response to the Restriction Requirement dated 02/28/2004, Applicants elect the invention of Group I, claims 1-21 and 23, drawn to a diaphragm pump, with traverse.

The Examiner has imposed a restriction requirement between claims 1-21 and 23, drawn to a diaphragm pump, and claim 22, drawn to a method for conveying liquids

using a diaphragm pump.

Reconsideration and withdrawal of the restriction requirement is respectfully requested. Any search of the diaphragm pump itself is certain to include a search of the use of a diaphragm pump to pump liquids, and any search of a process for pumping liquids using a diaphragm pump is also certain to include a search of diaphragm pumps as well. Accordingly, no additional burden would be placed on the Patent Office in searching both groups together. By contrast, a very great burden will be placed on Applicants if this restriction requirement is maintained. Applicants will be subjected to twice the cost and effort in prosecuting two patent applications for an invention that should have been included in one, and will also be subjected to the continuing expense of maintaining two separate patents, whereas only one should be required to cover the full invention.

In addition, an additional burden will be placed on the public, in that the full scope of Applicants' invention will not be ascertainable from a single patent, and the public will have to find and study two separate patents to ascertain the full scope of Applicants' exclusive rights.

The great additional burden that will be placed on Applicants and the public in maintaining the restriction requirement is far greater than the slight, if any, burden that will be placed on the Patent Office in withdrawing the Restriction Requirement.

The restriction requirement should therefore be withdrawn.

In the event that the Examiner does not find it possible to withdraw the Restriction Requirement, it is respectfully requested that the non-elected subject matter be rejoined with the elected subject matter upon allowance of elected subject matter.

CONDITIONAL PETITION FOR EXTENSION OF TIME

If any extension of time for this response is required, applicant requests that this be considered a petition therefor. Please charge the required Petition fee to Deposit Account No. 14-1263.

ADDITIONAL FEE

Please charge any insufficiency of fees, or credit any excess to our Deposit Account No. 14-1263.

Respectfully submitted
